

Blessed Sacrament Redevelopment – Community Update
March 23, 2026

Dear Neighbors,

We want to provide a monthly update on construction activities at the Blessed Sacrament redevelopment site at 361 Centre Street. Work continues to progress steadily, and we appreciate your continued patience as the project moves through the foundation and utility installation phases.

Current Construction Activities

- Pile installation work is underway as part of ongoing soil improvement to support the building foundations.
- Continued site preparation activities associated with foundation construction and export of excess materials.
- Masonry mobilization, including trailer setup, staging, and demolition of select openings.
- Concrete foundation preparation, including layout activities for pile caps and grade beams.

Upcoming Construction Activities

- Installation of reinforcement and concrete placement for pile caps, grade beams, and cast-in-place foundations.
- Installation of permanent electrical power infrastructure beginning in April 2026.

Construction Hours of Operation

Work will continue to occur **Monday through Friday, between 7:00 AM and 3:00 PM**. Occasional Saturday work will also occur, but not without formal approval from ISD.

Site Access and Temporary Traffic Changes

To support the installation of permanent power utilities:

- Portions of the on-site drive aisle will be temporarily reconfigured beginning in early April.
- Temporary fencing and signage will be installed to guide vehicles and pedestrians safely around active work zones.

Ongoing Site Safety and Monitoring

The project team continues to prioritize safety for both the site and the surrounding neighborhood. Construction fencing, signage, and lighting will be adjusted as needed during utility work. Vibration monitoring and site controls remain in place to ensure work is performed within safe limits for nearby buildings.

We appreciate your continued patience and cooperation as we move through this next phase of work. Our construction team remains committed to minimizing disruption wherever possible.

Sincerely,

The Blessed Sacrament Redevelopment Team
